SUMMARY

Innovative and detail-oriented Front-End Developer with a strong full-stack foundation and a specialized focus on crafting high-performance, scalable, and intuitive user interfaces. Adept in modern JavaScript ecosystems, particularly React.js and Next.js, with a proven ability to translate complex business requirements into elegant, maintainable front-end solutions. Experienced in building modular UI components, integrating RESTful APIs, and ensuring seamless user experiences across platforms. Demonstrated success in Agile environments, CI/CD workflows, and cross-functional collaboration. Committed to continuous improvement, clean code principles, and delivering impactful digital products that align with strategic goals.

EXPERIENCE

Senior Front-End Developer

Secure Traces

Apr 2025 – Jun 2025, Bangalore

Skills: React.js, Next.js, JavaScript, Git, Jira, AWS

Roles and Responsibilities:

- Developed and maintained dynamic, user-focused front-end features using React.js and Next.js, ensuring responsive and high-performance web interfaces.
- Collaborated closely with designers, product owners, and backend teams to translate business requirements into elegant, scalable UI solutions.
- Built reusable components and front-end libraries, improving development efficiency and maintaining design consistency across the application.
- Ensured cross-browser compatibility and mobile responsiveness to deliver seamless user experiences across devices.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives to ensure timely delivery of features.
- Used Git and Jira for version control and task management; integrated front-end builds CI/CD pipelines for automated testing and deployment.
- Conducted peer code reviews and supported junior developers in understanding front-end best practices and performance optimization techniques.

Senior Full Stack developer

Accenture

April 2024 – April 2025,

Bangalore

Project: EasyJet

Skills: Next.js, Git, Jira, AWS,

JEST

Roles and Responsibilities:

- Designed and developed RESTful APIs, ensuring secure and efficient data exchange between front-end and back-end systems.
- Implemented robust error-handling strategies to improve system reliability, reduce downtime, and enhance debugging efficiency.
- Built and optimized user-friendly, responsive UI components using Next.js, ensuring a seamless and engaging customer experience.
- APIs to extend application functionality and improve operational efficiency.
- Utilized Git for version control, ensuring smooth collaboration and maintaining a clean, well-documented codebase.
- Managed tasks, sprints, and bug tracking in Jira, actively contributing to Agile development processes.
- Worked closely with cross-functional teams, including designers, backend developers, and QA engineers, to deliver high-quality software solutions aligned with business goals.

Full Stack Developer
Adsiduious Media Pvt Ltd

September 2022 – April 2024, Hyderabad

Skills: Node JS, Next JS, React JS, MongoDB, Express JS,
git and AWS Roles and Responsibilities:

- Collaborate with the digital marketing team to understand project requirements and translate them into technical specifications for building data-driven dashboards.
- Design and develop responsive and user-friendly web applications using modern front-end technologies such as React.js with Next.js, ensuring a seamless user experience across devices.
- Implement server-side logic and RESTful APIs using Node.js and Express to handle data retrieval and processing from MongoDB databases.
- Utilize Git for version control to ensure a well-documented and organized codebase, enabling smooth collaboration with team members.
- Deploy and manage web applications on AWS cloud services, optimizing performance, reliability.
- Conduct regular code reviews to ensure coding standards, best practices and performance optimizations are followed, promoting high-quality code.
- Integrate third-party APIs and services to gather marketing data, analytics, and metrics, enhancing the dashboard reporting capabilities.
- Monitor application performance and conduct debugging and troubleshooting to address any issues promptly, ensuring the dashboard's stability and uptime.
- Implement authentication and access control mechanisms to maintain data security and privacy for authorized users.
- Stay UpToDate with the latest web development trends, tools, and technologies, actively applying new knowledge to improve development processes and project outcomes.
- Collaborate with cross-functional teams, including designers and marketers, to deliver effective solutions that meet business objectives and user needs

Senior Associate
IBM Pvt Ltd

December 2017 - December 2020, Bangalore

Project: DuPont

Duration: Dec 2019- Dec 2020 Skills:

HTML, CSS, Bootstrap, and

JavaScript Roles and Responsibilities:

- Experience using design tools like Figma & Adobe XD.
- provides a user interface using HTML, CSS, and Bootstrap.
- Creating form validations by using JavaScript regular expressions.
- Experience using bootstrap data tables.

Project: Dow Chemical Duration: Dec
2017- Nov

2019 Skills: Advanced Excel, Power

BI Roles and Responsibilities:

- Generating & Preparing Daily, Weekly & Monthly, Quarterly & Annual MIS Reports.
- Preparing presentations, Graphs, and analytical reports.
- Preparing Manpower Attrition Dashboard.
- Handling multiple reports working with formulas, Pivot tables, Pivot charts, & various other Excel sheet components for accurate data. Preparing the
- Reconciliation Reports, Quality Reports & Auto Post Reports
